These limestone caves have the distinction of being the only caves in Meghalaya that are lit enough to enable tourists to enjoy the natural formations in awe. Though the caves are long, only a distance of 150 meters is open for tourists, while the other section is closed. The stalactites and stalagmites caves have innumerable forms, shapes and sizes inside leaving one to imagine as many life forms as possible. This magnificent natural wonder is the handiwork of years of natural abrasion and underground water.
